About Polished Girlz

The Polished Girlz is a 501c3 non-profit organization that brings sparkle to the lives of girls with special needs or frequent hospitalizations by bringing the trendiest nail art parties to them, while teaching them the importance of hand washing to reduce infection rates and repeated hospital admissions.

As an organization, the Polished Girlz seek to empower not only their clients, but their volunteers, by offering them opportunities to improve the quality of life, build invaluable leadership skills, and providing them with opportunities for community service.

About Alanna Jai Wall, Founder & CEO

Alanna has had a heart to serve since she was very young, and at the age of 8 she wanted to make scarves for every single girl with a diagnosis of cancer.

With the encouragement of her Nana, she found a passion for Polish and glitter. Her love of drawing and design led to her not only polishing nails, but adding really cool nail art. The combination of her love of art, polish, glitter and her compassionate spirit was the recipe for Polished Girlz. Add a mission of hand washing, infection reduction, and a few like minded friends, and the "Polished Girlz" were born. Born to Rock, Born to Shine, and Born to Serve!

Fast forward two years, and what started as a single girl with a dream and her mom, has grown into almost one thousand children served, over 150 registered volunteers, and chapters popping up all over the place!

Stay tuned these girlz are on fire!
